

1. Print the die on black card stock

2. Cut out along lines and tabs in one piece

3. Fold the tabs and along each adjoining square to create a cube.

4. Glue or tape the tabs to the inside of the adjoining die wall.

5. Using a piece of chalk, write a different physical activity your child can do. Make them silly or turn it into a treasure hunt. The player who rolls the National Day Calendar logo gets to choose their action. So many ways to play!

6. Take turns rolling the die and completing each action. Have fun!
