

NO NAME-CALLING FORTUNE

www.NationalDayCalendar.com/classroom

You will need:

- Fortune printouts (provided in a separate link)
- 2 dice for each group

Divide the class into small groups. Each group will need a fortune teller. Each student will take a turn rolling the dice and then opening and closing the fortune vertically and horizontally the number of times on the dice. Open the fortune and read the instructions on the fortune for the number rolled. If the number is greater than six, then subtract the total from 6 and read the resulting number. For example, if a student rolls an 8, then the student should read number 2. After completing the fortune, the student to the left takes a turn.

For younger students, use the fortune on the left. Follow the directions above, but instead, have each student use the word to describe someone in the group.
